SUMMARY

Self-taught developer building Telegram bots and Mini Apps since 2022, with more than 15 completed Fiverr orders for international clients. Recent work includes Bekollo, an e-commerce Mini App, the Creative Awards 2026 Mini App, TeleStand for team stand-ups, and a USDT ban-prevention bot for a client in Malaysia.

SKILLS

Telegram	Bot API, Webhooks, Mini Apps (Web App SDK), Inline keyboards, Notifications, Payments
Backend	Node.js, Express, PHP, REST APIs, Scheduled jobs, BullMQ
Front end	React, Next.js, Svelte, Tailwind CSS
Data	PostgreSQL, MongoDB, MySQL

EXPERIENCE

Full-Stack Developer · **Bekollo** — Contract · Jun 2026 – Present

- Building the platform as a Telegram Mini App, so customers shop without leaving Telegram.

Telegram Mini App · E-commerce

Full-Stack Developer · **Bego** — Full-time · Jan 2026 – Present

- Building features across the React and Tailwind front end and the Node.js and Express API on PostgreSQL.

React · Node.js · Express · PostgreSQL · Tailwind CSS · AI

Full-Stack Developer · **Itemtab** — Remote · Oct 2025 – Jun 2026

- Built a Telegram bot, an e-commerce platform and an e-learning platform for a US client.

Node.js · Express · Next.js · React · Vite · Telegram Bot API

Telegram Bot Developer · **Fiverr and direct clients** — Freelance · 2022 – Present

- Completed more than 15 orders on Fiverr for international clients.

Telegram Bot API · Node.js · PHP

SELECTED PROJECTS

TeleStand · With Circle Technology · Telegram bot · Mini App
Daily stand-ups inside a Telegram group. Every topic is a project: the bot collects updates, reminds people who haven't posted, and admins see everything in a clean Mini App.

- Zero setup: add the bot to a group as an admin and it pins a short guide for everyone.

Telegram Bot API · Telegram Mini App

Creative Awards 2026 · Client project · Telegram Mini App · Website
One of the major award events in Ethiopia. I built the event's Telegram Mini App and worked on the website's UI/UX together with the organizer's team.

Telegram Mini App · UI/UX

USDT Ban Prevention Bot · Client in Malaysia · Telegram bot · Admin panel
A real-time Telegram bot that checks USDT addresses against ban lists and warns users before their addresses get banned or frozen.

- Monitors addresses continuously and detects potential freezes automatically.

Node.js · Telegram Bot API · Admin panel

Uni-Archive · Telegram Mini App
A shared archive of past exams for university students. While studying at AAU I noticed exams repeat, at least in content, so if every student contributes past papers, the next class can prepare better.

Svelte · Telegram Mini App

EDUCATION

BSc, Software Engineering · Addis Ababa University — 2023 – Present
